ABSTRACT SUBMISSION FORM

Sewer Asset Management

20-22 November 2013
Delft, The Netherlands

Name: 

Position: 

Mailing address: 

Telephone: 

E-mail: 

Please indicate with an “X” any of the following boxes that are applicable:
- My extended abstract is enclosed/attached
- I plan to submit an extended abstract before September 21, 2013

Please mail or email this form to:
Jeroen LANGEVELD
Delft University of Technology
Faculty of Civil Engineering and Geosciences
Stevinweg 1
2600 CN Delft
The Netherlands
Tel: +31 6 22409565
Email: j.g.langeveld@tudelft.nl

LOCAL ORGANISATION

Jeroen LANGEVELD
Jojanneke DIRKSEN

SCIENTIFIC COMMITTEE

Francois CLEMENS (Delft University of Technology)

Simon TAIT (University of Bradford)
Pascal LE GAUFFRE (INSA Lyon)
Manfred KLEIDORFER (University of Innsbruck)
Pedro RAMALHO (LNEC)

21st European Junior Scientist Workshop
on

Sewer Asset Management

Delft
20-22 November 2013

Organised by

SS&PWG
(Sewer Systems & Processes Working Group) of the IWA - IAHR Joint Committee on Urban Drainage
- IWA specialist group
Strategic Asset Management
- Delft University of Technology

Sponsored by

International Water Association
BACKGROUND AND OBJECTIVE

European Junior Scientist Workshops (EJSW) provide an opportunity for young scientists (typically PhD students, but also young researchers in both public and private sectors) to present ideas, plans, and preliminary results of their own research in an inspiring, friendly, co-operative, and non-competitive environment.

The idea is not only to listen and to watch, neither only to talk and to dominate, but to learn from and help each other in solving scientific problems. The 21th EJSW will focus on sewer asset management. This emerging field of research combines many disciplines and topics.

The main topics of the workshop are:
- Failure mechanisms
- Inspection techniques
- Pipe failure models
- Sewer ageing models
- Serviceability
- Data quality and uncertainty

CALL FOR EXTENDED ABSTRACTS

Authors are requested to submit an extended abstract to the workshop secretariat before 21 September 2013. The extended abstract should include the title, author(s), affiliation(s), full address (incl. tel., fax and e-mail) of the corresponding author, and 3-5 keywords.

The extended abstract should not exceed 4 A4-pages including possible illustrations, diagrams or tables. Interest of approach, applicability, methodology, modelling and results should be emphasised. Extended abstracts should be sent preferably by e-mail to the workshop secretariat (Microsoft Word).

Participants will be selected based on abstracts submitted. The maximum number of participants is limited to 20. Evaluation of abstracts will be carried out by the Scientific Committee.

Authors will be notified of acceptance for presentation no later than 30 September 2013.

LANGUAGE

English will be the language during working sessions. Other languages will be welcome during all other social events and activities.

PUBLICATION

The extended abstracts will be published as workshop proceedings (USB Sticks). For the preparation of the manuscript authors should use the instructions for authors recommended by Water Science and Technology: <http://www.iwaponline.com/wst/2a.htm>

Additionally the workshop proceedings will also be available after the workshop on the workshop’s website.

PLACE & TRANSPORTATION

The workshop will be held at Wateringen. Transportation to and from Delft train station will be arranged for.

PROGRAMME

Typically there are three working sessions per day, e.g. morning, afternoon, and evening. However, the programme is flexible such that an excursion can be made whenever weather conditions are favourable.

A sightseeing tour of Delft will be offered and organized for all participants before or after the workshop.

FEE

Participants are expected to make all travel arrangements to and from Delft and pay for the trip.

The workshop costs will be sponsored. A fee (approx. € 250,-) will be charged to cover costs for accommodation and meals.

WEBSITE

Information on the conference will be given and updated on the following website:
